Vacation Done Right

Tayrona Capital widens its hospitality ventures by launching the Privilege Luxury Club in Singapore.

By ALLISANORAINI

The first step in curating the perfect getaway is to leave all the nitty-gritty work of vacation planning to the highly dedicated concierge team of Tayrona Capital's Privilege Luxury Club. On the evening of 29 November 2018, the exclusive travel club officially marked its foray into Singapore with a cocktail event held at the Grand Ballroom of Capella Singapore.

Robb Report Singapore was proud to be the official media partner for the launch. Gracing the occasion was the president of Tayrona Capital James Ordonez, who acquainted guests with the multiple

offerings which members of the Privilege Luxury Club have access to, such as preferential rates, VIP privileges, room upgrades and special benefits for the use of facilities at resorts and hotels around the world with a minimum five-star rating. These hotels and resorts include Aman Resorts, Banyan Tree Hotels and Resorts, Mandarin Oriental and Six Senses amongst numerous others.

The Privilege Luxury Club has six levels of participation, with the black membership being the newest tier that will soon be launched. This tier offers members a discount of up to 60 per cent on published room rates at selected Capella hotels.

In addition to dance and drum performances, guests were treated to an evening of bites and bubbly where engaging conversations stretched throughout the evening. The event was also supported by Estee Lauder, Jet Quay, Roger Dubuis, Johnnie Walker, Quintessentially, Janus et Cie and Wine Journey.
